

Literacy for life Foundation

## How You Can Help

Literacy for Life Foundation is pleased to be able to provide resources and programs to meet the literacy and learning goals of people that live in the Municipal District of Foothills #31. We share information and ideas with parents, help adults make a difference with literacy and learning and provide literacy resources and information to individuals, families and agencies in our communities.

Our programs are provided at little or no cost to the learner, family or community agency. We count on grants, fundraising and donations and the help of volunteers to raise the money needed to provide the service.

**Literacy is a cornerstone issue in the community where you live.**

**Literacy for Life is locally organized and makes a difference close to home.**

**Literacy for Life believes in quality programs and listens to the families and learners they serve.**

**Literacy for Life Foundation believes that children and adults must feel comfortable and safe in our programs and that all community members are able to get the support they need.**
